Hello Sam:

In response to the request for 8801 data as detailed in the email below, the information has been compiled and posted here: [8801 - EPA requested data](#)

The EPA requested data folder includes two sub-folders that contain:

1. The Area 3 Remediation Data sub-folder has
  - a. Draft figure showing the Area 3 excavation extent and depths, confirmation sample position, and results for samples left in place along with an explanation.
  - b. Draft table with the confirmation sample results.
2. The dioxin data sub-folder has
  - a. A draft figure showing current extent of the Area 4 excavation and sampling points.
  - b. The laboratory report for the 2021 samples that were analyzed for dioxin/furan.
  - c. The validation report for the 2021 samples that were analyzed for dioxin/furan.
  - d. A note with the numbering for the primary and duplicate sample name.
  - e. A figure from the 8801 July 2020 Final Feasibility Study showing remediation targeted locations and chemical concentrations.
  - f. A table from the 8801 July 2020 Final Feasibility Study that includes the previously collected dioxin/furan analysis results.

Please let me know if you have any questions, or difficulty accessing the data.

With regards, Meg

**Subject:** Data Request

Hi Meg,

EPA is requesting info about the locations and results of any dioxin/furan samples associated with any of the excavations, and all the results for Area 3 along the property boundary. Please forward me those info if you have the data available. Thanks.

Sam Wang, Ph.D, P.E.
